WORK EXPERIENCE

Total Experience: 1+ Years

Stationary Online Shop
[Live Site](#) | [Client Side Code](#) | [Server Side Code](#)

Technology:

- Typescript, React.js, Redux, Express.js, MongoDB & Mongoose

Project Overview:

- Stationary Online Shop is a full-stack e-commerce platform for stationery products
- Built with **Typescript** and **React.js** for a scalable and interactive front end.
- Uses **Redux** for efficient state management and smooth user experience.
- **Express.js** powers the backend, handling API requests and business logic.
- **MongoDB** with **Mongoose** provides a flexible NoSQL database structure.
- Ensures a dynamic, responsive, and efficient shopping experience.

Personal Portfolio & Blog Website
[Live Site](#) | [Client Side Code](#) | [Server Side Code](#)

Technology:

- Typescript, Next.js, Express.js, MongoDB & Mongoose

Project Overview:

- **Personal Portfolio and Blog Website** showcases projects, skills, and blog posts.
- Built with **Typescript** and **Next.js** for a fast, SEO-friendly, and dynamic front end.
- **Express.js** handles the backend, managing API requests and content delivery.
- Uses **MongoDB** with **Mongoose** for efficient data storage and retrieval.
- Provides a clean, responsive, and user-friendly experience.
- Ensures seamless navigation and optimized performance.
